

## TECHNICAL SHEET

### NOTEKA E-DESKTOP **Your work follows you anywhere**

You may move around a lot for personal or professional reasons, but always have to take along your computer and all your files.

We can bring you all the freedom you've ever dreamed of: **Noteka Virtual Office.**

Compatible with all Microsoft© software, it also includes in option a PDA/SyncML connection allowing you to synchronize your schedules, contact information, etc. and you can set up different user accounts yourself.

In order to increase your profits and save you money, we propose our E-Desktop in ASP mode, which will allow you to use your software whenever and wherever, to reduce your purchase and maintenance costs, to neither have to buy nor maintain costly computing equipment, to have highly-personalized use, to use the most recent version of the software and to keep all your information safe.

**All of its modules include specific levels of access: they can be private, shared or viewed by certain users or groups.**

- Messaging, Reading, sorting, sending, filtering, web interface, preferences,
- Calendar, appointments, resources, web interface, import/export, security,
- Address book, add/delete, import/export, messaging interface, web interface, online research, security,
- Project management, task management, follow-up of resources, Gant charts,
- Scheduling, description of time spent on a project, history,
- Knowledge base, sort by categories, keywords, articles, questions/answers,
- File sharing, accessibility, archive security.
