

TECHNICAL SHEET

NOTEKA E-COMMUNITY PORTAL

The very structure of your community creates a need to make vital information available to ensure cohesion and durability.

This is why the community portal is the most performing tool, and the one which allows this information to be collected and circulated for all of your members. To give you a simple, user-friendly tool, which can evolve with you and your changing needs, we have chosen to organize the portal by modules. This allows you a flexible, dynamic and low-cost way of working and you benefit from Noteka's permanent commitment concerning any technical improvement.

The following modules are currently available:

- Central directory, to manage all member and contact data,
- Recruitment, job announcement and CV database, which can be consulted by professionals and members,
- Management, which allows monitoring and drawing up performance indicators,
- Search engine, by text, keywords, classification by relevance, title and display of first lines,
- Contents, CMS system to edit contents in HTML format, to manage security and attachments,
- Forums, protected and secured, by theme which archiving,
- Events, event organization and management of all their stages,
- Online polls, mini-quizzes to remain informed of the opinion of your members,
- E-mailings, with lists of recipients, communication campaigns,
- Sales, Purchases, exchanges within the community, classified advertising, and electronic commerce on the small scale.

Don't hesitate to contact us for any additional information at contact@noteka.com and to tell us about your needs in order for us to customize our tool for you and your environment.
